SKILLS

- **Programming Languages:** Python, C, Java (Basics), HTML, CSS, Java Script, SQL.
- **Developer Tools:** VS Code, Anaconda, Selenium (Basics).
- **Technologies/Frameworks:** Django, Git & Github .
- **Hosting Platform:** Render, Versel, Netlify.
- **Designing Tools:** Figma, Canva.

EDUCATION

- **H K B K College of Engineering** *CGPA: 7.5 | (Dec '21-Present)*
  Bachelor of Engineering, Information science & Engineering *Bengaluru, India*
- **K V R Maruthi Pre-University College** *Percentage: 80% | 2021*
  PCMB *Tumkur, India*

EXPERIENCE

- **Full Stack Developer Intern | Karunadu Technologies Pvt.Ltd, Bengaluru** *(Oct '23-Nov '23)*
  - Worked on python for full stack development.
  - Django as Frame Work for Full Stack Development.
  - Built UIs with HTML, CSS, and Bootstrap, and participated in code reviews.
  - Used Machine Learning and AI for prediction and analysis.

ACADEMIC PROJECTS

- **Portfolio– Full Stack based Website**
  - This is my Personal Portfolio, which contains all of the information needed to work in the IT industry.
  - Portfolio is developed by using – HTML, CSS, Java Script, Django, Django models, Python, SMTP.
  - Link – https://harsha-032.github.io/Harsha_portfolio/

- **Crime Reporting Management System – DBMS based reporting system**
  - An end-to-end Database and SMTP focused portal for users.
  - Which users can report crime details in crime reporting website.
  - wanted list and safety precautions will be uploaded by using database, It include Login and Sign up.
  - Developed by using – Django, Python, Django models, HTML, CSS, SMTP.

- **Quality Testing – based on Machine Learning**
  - This project will test the quality of the wine.
  - Machine Learning algorithm is used to test the quality, Algorithm used (Naïve Bayes Classifier).
  - To achieve high accuracy, we train significant amount of data using algorithms and datasets.
  - It includes Login and sign up, developed by using – Django, python, Pandas, Datasets, HTML, CSS.

HOBBIES

- Gym, Cooking, Anime, Volley ball, online games
